

LUXART

WINDOW SHUTTERS

The Luxury & Artistic Window Shutters

Why use WINDOW SHUTTERS?

1. Luxurious Design

Window shutters is a furniture for window that is solid, stable, and custom-made to fit any window design. It is truly designated as upscale window furniture to bring a touch of luxurious design.

2. Child Safety

Window shutters doesn't use any cord. The cord used in window covering products can cause strangulation for small children who get trapped in the cords.

3. Cleaner Air

Window shutters is the only product that has bigger clearance in the design and easy to clean which therefore has less dust compare to other window covering products.

4. Easy Maintenance

Window shutters is easy in maintenance because the clearance between louvers is big and reachable by hands with cleaning cloth.

Why choose

LUXART WINDOW SHUTTERS?

Imported Components, Custom-Made Locally

Luxart Window Shutters is fully custom-made in a manufacturing factory located in Tangerang. The components, accessories, and the state-of-the-art machinery that are used in the manufacturing are imported from selected suppliers located in USA and Europe. We deliver to you a best window shutters that is crafted from a combination of imported materials and local craftsmanship.

10 Years Warranty

We believe on what we produced and standing behind it, we have no doubt to offer a long term warranty as 10 years for service, accessories, and components. The details of the term and condition will be written on a warranty certificate.

Eco Friendly

Luxart Window Shutters is made of solid synthetic material that look and feel like real wood and is guaranteed will not chip, crack, warp, or split. It has become an environmental-friendly product because there is no wood material being used in the process. We are also offering re-painting service at reasonable cost in order to keep the beauty looks of the Luxart Window Shutters in longer lifespan.

Energy Efficiency

Luxart Window Shutters is insulating better than the other window covering products which means it can absorb and reflecting the heat without transferring it to the inside of home. During high temperature weather in summer season, many homeowners might not need to use their cooling units as much. With minimizing the usage of your air conditioning will guide to energy efficiency.

Toxic Free

The components and accessories of Luxart Window Shutters are imported from selected suppliers in USA and Europe who only use non-toxic materials from reliable sources. The materials has been used in USA and Europe for more than 25 years and guaranteed safe for kids. Our Luxart Window Shutters is also painted with special formulated paint that is guaranteed free of formaldehyde and non-toxic.

Anti Static

Luxart Window Shutters has anti-static feature in its solid synthetic material. The anti-static feature is not trapping the dust which makes the air at your home has less dust contamination. This simply a support to the cleaner air in your home.

Water Resistant

Thanks to its water-resistant feature, Luxart Window Shutters can be cleaned easily with a damp cloth and soapy water. The gap between the louvers is big so enable our hands to wiping the louvers easily. Since it is painted with mould resistant paint, so it could be cleaned every day. Your Luxart Window Shutters will always looks new without need to spend more money for professional cleaner.

Termite Resistant

Luxart Window Shutters will not damage with any termite, doesn't like other window covering products made of wood. Luxart shutters is made of solid synthetic material that is guaranteed termite resistant.

Flame Retardant

Luxart Window Shutters has flame retardant feature which means when the fire burns it, it will burn itself and not spreading the fire. This is different with wood which spreading the fire when it get burns.
